

RS180 MIXER PUMP

FOR GYPSUM FLOORING AND GROUTING

HIGHEST VALUE/LOWEST COST GYPSUM MIXER PUMP IN THE INDUSTRY

Take productivity on flooring underlayment applications to another level with the RS180 mixer pump. It features our robust 1,200 lb capacity hydraulic spiral mixer with gearbox drive. A high-capacity rotor stator pump allows for adjustable pumping pressure to minimize wear on parts, which means less maintenance and less downtime. Best of all, it's backed by industry-leading customer service.

High-volume, long-distance pumping. Easy operation. Fast cleanup. Maximum equipment longevity. Features industry-first modular pump kit.

RS180 MIXER PUMP

Adjustable pumping pressure

Easy-to-use hydraulic controls

Clean mixer discharge

FEATURES & BENEFITS

- Simple hydraulic controls allow for easy operation
- High-volume, long-distance pumping at a fraction of the cost of competitors
- Modular pump kit and most robust and fastest mixer in the industry
- Fewer moving parts and easy access to mechanical seals reduces downtime
- Adjustable pumping pressure maximizes longevity and doubles or triples the life of the pump
- Dual axle towing trailer and durable tubular steel framework enable safe travel and maximum maneuverability
- Rotor stator pump provides continuous flow and eliminates surges, increasing productivity

SPECIFICATIONS

Pump	2L8 Adjustable Rotor Stator
Pump Pressure	600 psi (41 bar)
Mixer Type	Hydraulic Spiral with Gearbox Drive (0-60 RPM)
Mixer Capacity	12 cu. ft. (4 bag mixer)
Hopper Capacity	15 cu. ft.
Water Tank Capacity	150 gal.
Output*	Less than 2 min. mix time with variable output from 0-18 yd ³ /hr.
Dimensions (L x W x H)	217" x 88" x 94"
Weight	6,720 lbs. (3,048 kg.)
Engine	55 HP Yanmar Water-Cooled Diesel (Tier 4 Final)
Trailer	Dual 7,000 lb. Axles

*Output as well as conveying distance and height vary depending on material, jobsite conditions, mixing speed, pumping speeds and conveying system diameter.

OPTIONS

- 2,000 psi (138 bar) Hydraulic Pressure Washer
- Spare Tire
- Pendant or wireless remote
- Blastcrete computerized water metering system
- Skid-mounted with forklift tubing
- Custom solutions

2000 Cobb Avenue, Anniston, AL 36201
